## COOKING 700 SERIES

[www.whirlpool-professional.com](http://www.whirlpool-professional.com)

  
SENSING THE DIFFERENCE

The Whirlpool professional Cooking Collection features top quality appliances and offers the widest variety for all uses in the catering industry. All Whirlpool products comply with, and in some cases exceed, the most stringent European standards and regulations for the catering industry. The Cooking Collection features 3 series: the 600, the 700 and the 900 series, that are particularly adapted to a wide variety of needs in terms of capacity and size, and can be combined to create your own highly customized kitchen. All series are made of AISI 304 Stainless Steel. All gas products are equipped with a main burner nozzle for natural gas (G20), and with a kit to fit with LPG gas.

The range consists of:

### - 700 Series

The 700 series was developed to the same exacting standards of the larger size collection, but is particularly adapted to medium size facilities such as restaurants and small collective catering services. Particular thought has been given to space issues. The high modularity of the Whirlpool 700 series and its wide range of professional cooking products offer countless possibilities to address the needs of the most demanding professionals.

# GENERAL FEATURES

	total volume including packaging m <sup>3</sup>		baskets mm
	external dimensions mm WxDxH		cooking surface
	voltage V		tank mm/n°
	electrical connection rating kW		tank capacity lt
	gas connection rating kW		independent cooking areas
	gas power output kcal/h		smooth plate
	grid dimensions mm WxD		smooth chromium plate
	weight kg		grooved plate
	electric oven		round plates
	gas oven		pyroceram plates
	number of doors		induction plates
	number of drawers		square plates
	flame burners		autoclave lid
	Z pilot		solid top burners
	pilot
